

*Witness* a rare  
celestial event—

**T H E**

*Venus*

**T R A N S I T**

at Vanderbilt Dyer Observatory

via a select NASA broadcast from the National  
Observatory of Greece.

Join us to watch Venus as it moves across the disc of the  
Sun. Astronomers from Fisk and Vanderbilt University  
will be on hand to discuss the historical significance of  
this event, which last occurred in 1882.

**JUNE 7<sup>TH</sup> at 11 P.M. until JUNE 8<sup>TH</sup> at 6:30 A.M.**

Vanderbilt Dyer Observatory, 1000 Oman Drive, Brentwood

**RESERVATIONS REQUIRED**—please call 373-4897.
